

Hub Version 4.0 Instructions

Downloading the new app to the iPad:

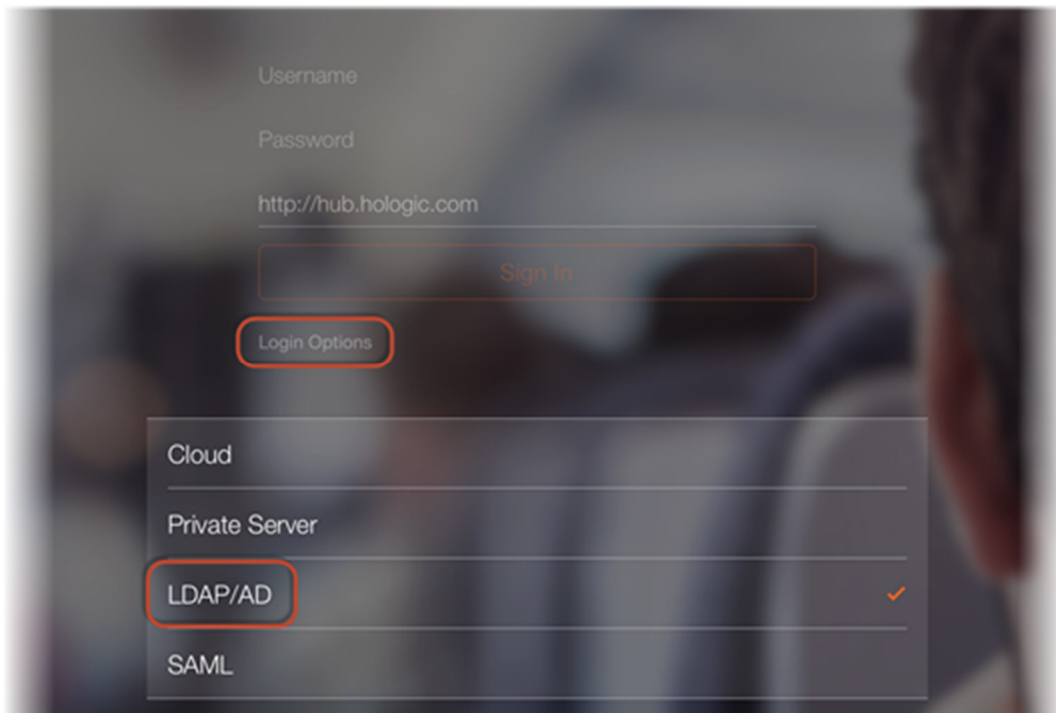

1) Open the Apps@Work icon Apps@Work on your iPad.

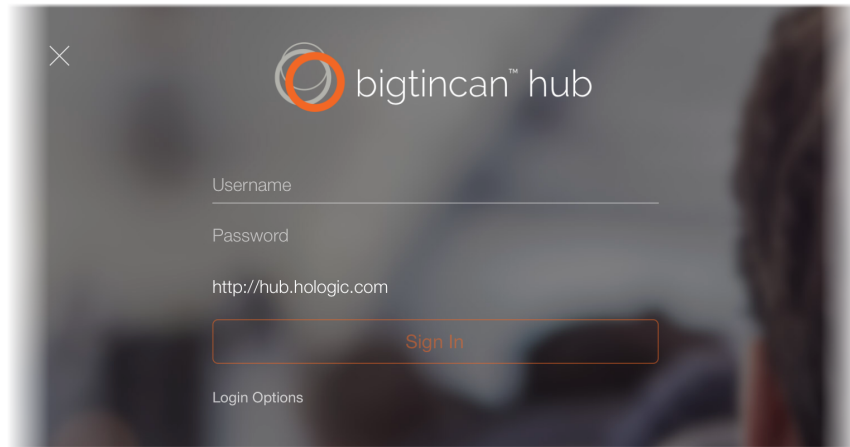

- a) Click on the Bigtincan hub icon
- b) Click "Request"
- c) Type in your iTunes Apple ID and Password if prompted.

- 2) Return to the iPad home screen and click the hub icon
- a) Click on "Login Options" and select LDAP/AD from the drop down menu:

- b) Type in your username/password (used to log into your laptop/VPN) and the server address **http://hub.hologic.com**, then click “Sign In”:

- 3) The app may take up to one hour to download all of the materials, make sure the app is left open. Have the iPad plugged into a charger and connected to WiFi (Do not use your Mi-Fi or hotspot to download the Hub- connect to a home or public WiFi).
- 4) Once the scrolling arrows in the top right hand corner have stopped moving, your materials have downloaded. You are all set to access the new Hub!

Brainshark

To help you navigate– we’ve created a Brainshark showing you the new and improved Hub. It’s only **8 minutes** and will introduce you to everything the new app has to offer! [Click here](#) to watch today!
